DETAILED ACTION

Page 2

The art unit designated for this application has changed. Applicant(s) are hereby informed that future correspondence should be directed to Art Unit 1631.

Two Specie Election Requirements:

This application contains claims directed to the following patentably distinct species of the claimed invention:

First Specie Election Requirement:

Specie A: step (a) which uses correlation analysis

Specie B: step (a) which uses differential significance analysis

Specie C: step (a) which uses other forms of analyses

Second Specie Election Requirement:

Specie D: selecting a biomarker using simulated annealing

Specie E: selecting a biomarker using a non-simulated annealing technique

Applicant is required under 35 U.S.C. 121 to elect a single disclosed specie for both of the election requirements for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. The distinctness of correlation analysis versus differential significance analysis versus other forms of analyses is because each form of analysis uses different method steps to obtain the required analysis and is not required for the other analyses. The distinctness of simulated annealing techniques versus other biomarker selection techniques involve the use of different method steps and are not required for each other. These species involve separate analyses and method steps which are often separately characterized and

Application/Control Number: 09/994,576

Art Unit: 1631

published in literature, thus adding to the search burden if all species were examined together.

Thus, the species are independent and/or distinct invention types for restriction purposes.

Applicant is advised that a reply to this requirement must include an identification of the specie that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should an applicant traverse the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

(703) 308-4242 or (703) 305-3014.

Papers related to this application may be submitted to Technical Center 1600 by facsimile transmission. Papers should be faxed to Technical Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notices published in the Official Gazette, 1096 OG 30 (November 15, 1988), 1156 OG 61 (November 16, 1993), and 1157 OG 94 (December 28, 1993) (See 37 CFR §1.6(d)). The CM1 Fax Center number is either

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carolyn Smith, whose telephone number is (703) 308-6043. The examiner can normally be reached Monday through Friday from 8 A.M. to 4:30 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Woodward, can be reached on (703) 308-4028.

Any inquiry of a general nature or relating to the status of this application should be directed to Legal Instruments Examiner Tina Plunkett whose telephone number is (703) 305-3524 or to the Technical Center receptionist whose telephone number is (703) 308-0196.
